

# Foodservice CLING WRAP

The Clear Decision  
in Food Protection

**ANCHOR**  
PACKAGING

## Premium-Grade Cling Wrap with Safety Cutterbox

All-purpose cling wrap in self-dispensing anti-slip feet cutterboxes. Includes standard cutter blade. Dri-Gard™ coating on the box repels grease and moisture to keep boxes sanitary and sturdy. Available in 1000', 2000' and 3000' lengths with 12", 15", 18" and 24" widths.

### Purity Wrap®- Canadian Sizes

The same "Purity Wrap" all-purpose cling wrap in sizes for Canadian markets. Available in single-roll cutterboxes with bilingual instructions and a standard cutter blade. Also available in 3-pack refill rolls that can be used in permanent dispensers.

### Purity Wrap® Safety Cutters

Plastic Safety Cutters cut wrap cleanly and safely. Blade is fully enclosed in "trolley" and cuts in either direction. One blade can last through 100 boxes of wrap. For use on conventional cutter boxes.

# CRYSTALCLEAR™

The image is a promotional advertisement for Anchor Packaging's CrystalClear containers. It features a variety of fresh foods packaged in different styles of clear plastic containers. In the top left, a black bowl holds a colorful fruit salad with strawberries, orange slices, and kiwi. To its right, a large black bowl is filled with a Caesar salad containing lettuce, croutons, cheese, and a hard-boiled egg. In the middle left, a silver tray holds a salad with lettuce, tomatoes, and cheese. In the foreground, a clear plastic bowl contains a salad with lettuce, blue cheese, and croutons. To the right, a clear plastic container holds a sandwich with lettuce, tomato, and meat. Below the sandwich, another clear container holds a green salad. A red bell pepper is visible in the bottom left corner. The background is a light gray surface.

## Hinged Gourmet Classics® Containers

Six hinged packages with shiny black bases available from 14 to 40 ounces in 6", 7 1/2", and 9" sizes in deep and shallow profiles. The crystal clear hinged lids are designed with a tear-away feature to allow customers to place the lid under the base where it interlocks in place for a table-ready presentation. The lids will not fog in cold temperatures with Clear Guard™ anti-fog technology driving impulse sales and eliminating order errors. Gourmet Classics containers are made with FDA approved post-consumer recycled PETE content and remain recyclable curbside making them a sustainable solution as well.

### CrystalClear Features: Benefits:

Outstanding clarity	• Lets the food stand out driving impulse sales and repeat business
Moisture, air, oil/grease resistant	• Keeps food fresh and appealing
Leak-resistant closure	• No messy spills on display or during transport
Assorted shapes and sizes	• Choose the size to fit your presentation in a design that fits your image
Separate lids or hinged	• Table-ready presentations in two-piece designs or one-piece hinged packages
Sturdy and crack-resistant	• Durable material withstands rough handling and won't crack if dropped
Recycled content	• Made with a minimum of 10% FDA approved post-consumer recycled PETE
Recyclable Curbside	• Eligible to be recycled and the most recycled material nationwide – PETE/RPET ♻️

RPET products made with a minimum of 10%  
FDA approved, post-consumer recycled material

# *Culinary* SERIES

BRINGING YOUR  
FOOD INTO FOCUS

## ANCHOR PACKAGING

INNOVATIVE SOLUTIONS WORLDWIDE

# Culinary SERIES

## WHAT DOES YOUR PACKAGING SAY ABOUT YOUR FOOD? Four High-Performance Lines for Delivery, Pick-up & Takeout

The Culinary Series delivers the “dining out” experience your customers expect at home or on-the-go, anywhere, anytime, any meal, or snack. Online ordering continues to increase, and competition from other foodservice locations offering delivery, curbside pick-up, and takeout is growing. The Culinary Series line offers a range of shapes, sizes, one-piece hinged, and two-piece separate bases, and lids that fit your needs and requirements. All products are made with polypropylene to withstand temperatures to 230° F with heat lamps, warming units, and microwaves.

The high-clarity, vented, anti-fog lids keep food looking fresh and appealing to drive impulse sales and avoid order errors. Leak-resistant, secure closures keeps lids closed during handling and transport to prevent messy spills. Culinary series containers are strong, durable, and cut-resistant with excellent structural integrity to maintain the food presentation.

## FOOD-TO-GO HAS NEVER BEEN MORE IMPORTANT!

Choose the Perfect Solution & Get the Praise Your Food Deserves

### ATTRIBUTES

### BENEFITS

<b>Clear Polypropylene Lids</b>	High clarity optimizes food visibility to reduce order errors Will not crack or emit odors like polystyrene
<b>Anti-Fog Vented Lids</b>	Keeps food looking fresh and appealing Food visibility in hot displays drives impulse sales
<b>High-Temperature Performance</b>	Packages withstand temperatures to 230°F for Use under heat lamps, in warming units and microwaves
<b>Polypropylene Bases</b>	Durable and cut-resistant makes it easy to eat on the go No re-plating needed; heat and eat in the same container
<b>Ribbed Sidewall Design</b>	Excellent structural integrity keeps food in place Preserves the presentation during handling and transport
<b>Secure Closure and Leak-Resistant</b>	Lid remains closed to preserve the presentation and Prevent messy spills during transportation
<b>Easy-Open Tabs</b>	Intuitive finger grips on each end direct the consumer to Easily open and reclose for leftover storage
<b>Hinged or Separate Base and Lid</b>	Multiple options to best support your operation Assorted shapes and sizes to fit the menu
<b>Single or Multiple Compartments</b>	Bases and lids provide the option to segregate flavors with separate spaces for entrees and sides or to serve all in one
<b>Sustainable Solution: Reduce</b> 	40% Less polypropylene used in Culinary Squares® bases Lighter gauge polypropylene material in Culinary Lites® hinged
<b>Sustainable Solution: Re-Use</b> 	All polypropylene Culinary packages are dishwasher-safe and Consumer reusable multiple times
<b>Sustainable Solution: Recycle</b> 	All Culinary Series polypropylene packages are recyclable Polypropylene PP  widely accepted for curbside pick-up

## Sustainable Solutions in Packaging

### ANCHOR PACKAGING MANUFACTURES RIGID PACKAGING TO PROTECT FOOD-TO-GO, AND FOLLOWS THE EPA RECOMMENDATIONS FOR SOLID WASTE MANAGEMENT.

For over 50 years, Anchor Packaging has manufactured innovative consumer packaging solutions with performance characteristics that maintain food quality for delivery, display and takeout. We continue to expand our knowledge, designs, technology and operational base to create and deliver the answers to tomorrow's packaging challenges.

Anchor Packaging offers environmentally neutral products produced in a sustainable manufacturing environment. Anchor recycles virtually 100% of its raw materials and continues to optimize our product designs in order to reduce fuel costs and waste.

#### REDUCE:

Our product development team has greatly reduced the use of petroleum-based resins in our products through design, process and material engineering without sacrificing performance. Our polypropylene (PP) Culinary Squares® black bases use 40% less oil-based resin with natural mineral filled additives. The Culinary Lites® hinged containers utilize lighter weight material without sacrificing performance.

#### REUSE:

Anchor Packaging was the first to introduce "REUSE, then recycle" with our polypropylene takeout packaging. Our product designs provide sturdy, rigid packages that are dishwasher-safe for multiple uses. The EPA continues to recommend REUSE over many other waste management strategies.

#### RECYCLE:

Anchor's rigid polypropylene clear lids, hinged containers and mineral-filled black bases are eligible for recycling curbside in most communities. Check for local recycling information at [www.earth911.org](http://www.earth911.org).

#### RECOVER (STORED ENERGY):

Anchor polypropylene products, when safely incinerated in a waste-to-energy facility, produce the highest per ton BTU energy value of any waste material: 38 million BTUs per ton. This is twice the energy value of coal, the primary source of electric power generation in the U.S.

## Crisp Food Technologies® Containers

Keeps Fried Foods Hot & Crispy for 30-Minute Transit  
 Maintains Food Texture and Temperature

**In Use at  
 Over 21,000 Locations**

Unique, patented, convection cross-flow design relieves moisture and condensation while maintaining food temperature. Through-the-closure ventilation and raised airflow channels in the bottom of the container, combine with venting in the lid to ensure fried foods remain crisp.

Independent studies by leading retailers and restaurant chains demonstrate that the temperature and texture of fried foods are preserved longer than in other materials during 30-minute delivery.

Ideal for burgers and fries, chicken wings, fried chicken and more!

Add soups, salads, and side dishes to Crisp Food Technologies® Containers to hear the sounds of a successful delivery experience!

# Home DELIVERY

Featuring:  
CRISP FOOD TECHNOLOGIES® CONTAINERS

## ATTRIBUTES

## BENEFITS

**Convection Cross-Flow Design: Venting in Lid, Side Vents, Raised Ridges in Base**

Maintains food taste, texture and temperature by relieving moisture and condensation. Keeps fried foods hot & crispy for 30-minutes in transit.

**High-Temperature Performance**

Durable container with cut-resistant base withstands temperatures to 230°F with heat lamps, warming units and microwaves.

**Clear, Anti-Fog Lid**

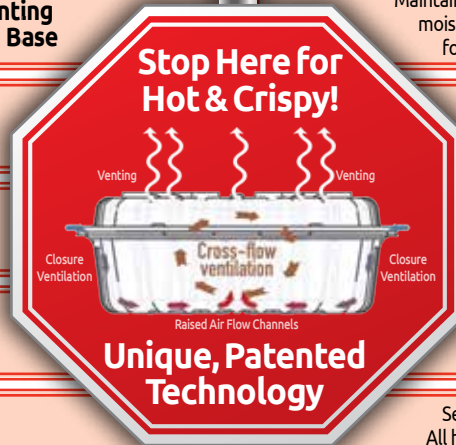

Food visibility reduces errors before orders leave the restaurant or store. Highlights food contents with appealing "just made" look.

**Secure Closure**

Lid snaps shut and remains tightly closed during handling and transit eliminating messy spills.

**Reduce, Reuse, Recycle** 

Separate bases are made with 40% less polypropylene resin. All hinged containers, bases, and lids are dishwasher-safe, consumer reusable, and curbside recyclable. ♻️

**Consumers want the same taste experience at home as they have in the restaurant!**

### Crisp Food Technologies® Containers

# MICRORAVES<sup>®</sup>

PACKAGING  
THAT PERFORMS

ANCHOR PACKAGING  
INNOVATIVE SOLUTIONS WORLDWIDE

**Incredi-Bowl<sup>®</sup> Bases and Lids**

Round polypropylene bowls in 15 sizes from 5 ounces to 48 ounces provide the optimal solution for many food applications. Excellent for soup, stew, chili, pasta, stir-fry and much more, can be used as a main course or as a side dish. Works well for sauces and desserts, too. Each lid fits multiple containers of various depths in 4", 5", 6", 7" and 8.5" diameters. Inside fitting polypropylene lids with leak-resistant seal eliminates messy spills and easy-open tabs are a consumer favorite.

### 10" - 11" Shallow Oval Platters

Assorted sizes and designs in shallow polypropylene oval platters for any meal or snack occasion. The full perimeter leak-resistant closure prevents messy spills and the addition of several unique features lets you choose the style that best suits your needs. Choose a platter designed to hold an 8 ounce paper food container in place without an extra lid or a package with an arrow that points the way for quick closure. A platter with extra ribbing is available for holding a heavy load.

†High impact co-polymer polypropylene for refrigerated and frozen distribution channels.

### 10" x 7" Retangle

Popular one, two, and three compartment polypropylene rectangles are the perfect size for most meals. The single compartment 32 ounce containers will accommodate a wide variety of entrees and sides. The 2 and 3-compartment containers keep flavors segregated and the 2 and 3-compartment polypropylene lids will prevent solids from mixing in with other foods. The non-compartmented, leak-resistant polypropylene and RPET dome lids will fit all four containers and allow food with bones or unusual shapes to fit a base with or without compartments.

	HD632	4489410	6" x 2" clear oblong polypropylene hinged container	7.24" x 4.17" x 2.49" 18.4 cm x 10.6 cm x 6.3 cm	17.52 lbs. 8.0 kg	5.42 ft <sup>3</sup> .15 m <sup>3</sup>	540	4/3

Clear, anti-fog, vented lids keep food looking fresh and appealing

## Packaging that Performs

MicroRaves: Whether its restaurant take-out and delivery or supermarket take-home, think **RAVE**:

- Resistant to heat and leaking
- Anti-fog clear polypropylene lids
- Variety of shapes, sizes and configurations
- Every merchandising and prepared food to-go need is available

Features	Benefits
• <b>Polypropylene Bases and Lids</b>	High performance products withstand temperatures to 230°F under heat lamps, in warming units or the microwave. Resistant to hot grease and oils. No release of odors when heated affecting the flavor or taste of food. Tough, cut-resistant material is also light and durable.
• <b>Clear Polypropylene Lids</b>	Clear Guard® anti-fog in all polypropylene lids offer excellent visibility of hot foods to assure order accuracy and drive sales from a hot display.
• <b>Clear PETE Lids</b>	Excellent visibility increases impulse sales of cold, ready-to-reheat foods in a refrigerated display.
• <b>Design</b>	Variety of shapes and footprints for every merchandising and take-out situation. Classic black bases with ribbing to reinforce the container and allow juices to drain.
• <b>Size</b>	Single serving, multiple or family size portions, snacks and small portions.
• <b>Single and Multiple Compartments</b>	Appetizers, sides, entrees, desserts packaged separately or complete meals.
• <b>Leak-Resistant Closure</b>	Confidence that the food stays inside package during handling and transport avoiding messy spills.
• <b>Combo Packs</b>	Many products available in convenient base and lid combo packs.
• <b>Consumer Reusable</b>	Polypropylene packages are dishwasher safe and a valuable bonus for your customers who can reuse the containers again and again.
• <b>Recyclable &amp; Sustainable</b>	All polypropylene  and RPET/PETE  are recyclable. Many black, polypropylene bases are made with natural additives reducing the use of oil based resins by 40%. The RPET lids are made with a minimum of 10% FDA approved post-consumer recycled resin.

Many products listed are made with 40% less PP resin and the PETE bases and lids are made with a minimum of 10% FDA approved, post-consumer recycled material (RPET)
