

Polypropylene Deli Sliders from Elkay®

Polypropylene slide seal deli bags provide an excellent and economical alternative to standard LDPE deli bags. Any deli meats, cheeses, or foods placed inside look even more delicious due to the outstanding clarity of polypropylene film. Even with film that is only 0.8 mils thick, the bags have outstanding strength and resilience that even outmatches significantly thicker and more expensive competitors. The easy-to-use slide seal closure helps keep food fresh and secure and are a favorite with consumers. These bags are packaged in bundles of 50 bags each that are designed for use on a saddle dispenser.

POLYPROPYLENE DELI BAG FEATURES:

- Polypropylene material provides excellent strength and clarity
- Economical alternative to pricier LDPE bags
- Convenient slide seal closure
- Available printed or unprinted
