BENEFITS OF THE FAST TAKE® BAG:

- **EXCEPTIONAL CLARITY:** allows the quality of your products to show through
- **EASY TO CARRY:** the bonded loop handles are handy and comfortable
- **CONVENIENCE:** customers can easily “grab and go” purchase with one hand
- **STRENGTH:** the 3 mil co-extruded polypropylene material provides excellent protection and allows the bag to be reused by consumers

SOME USES INCLUDE:

FAST TAKE® RETAIL BAG:

Pre-packaged items typically help drive more impulse sales and higher transaction prices. Clear packaging is a critical element in the sale of ‘grab and go’ foods and other items where consumers make decisions with their eyes. The Fast Take® bag features convenient carry handles.

BOX LUNCH PACKAGING:

Whether it’s a caterer, a school or a golf course, everyone agrees on one thing: lunch looks great when packaged in the Fast Take® bag! But they’re far more than just another pretty face: they’re practical as well. They feature convenient carrying handles, they’re reusable, and they take up less room in the trash receptacle compared to a regular box lunch container.

PRODUCE:

Pre-package your fresh produce in the Fast Take® bag and watch sales take off! The crystal clear Fast Take® bag makes your produce look great and pre-packaged portions can help increase sales.

BAKERY:

Bakery packaging should provide the consumer with ease of handling, protection of the products and provide appearance that projects the quality of the bakery items.
