Elkay's Nylon Pan Liners are designed to be placed in oven baking/roasting pans, steam table serving pans, soup and crock pots in order to reduce pan clean up and to eliminate pan scorching. These rugged liners are made from nylon and performance-specified resins to withstand cooking temperatures of 400°F. Cost savings come from the labor saved in clean up and the extended pan life; both resulting from eliminating scrubbing of burned on food residue.

SAVINGS CALCULATOR

Restaurant operators, caterers and other commercial foodservice operations will realize significant cost savings from reduced labor during clean up as well as extended pan life.
