PLACON CORPORATION | 6096 MCKEE ROAD | MADISON, WI 53719

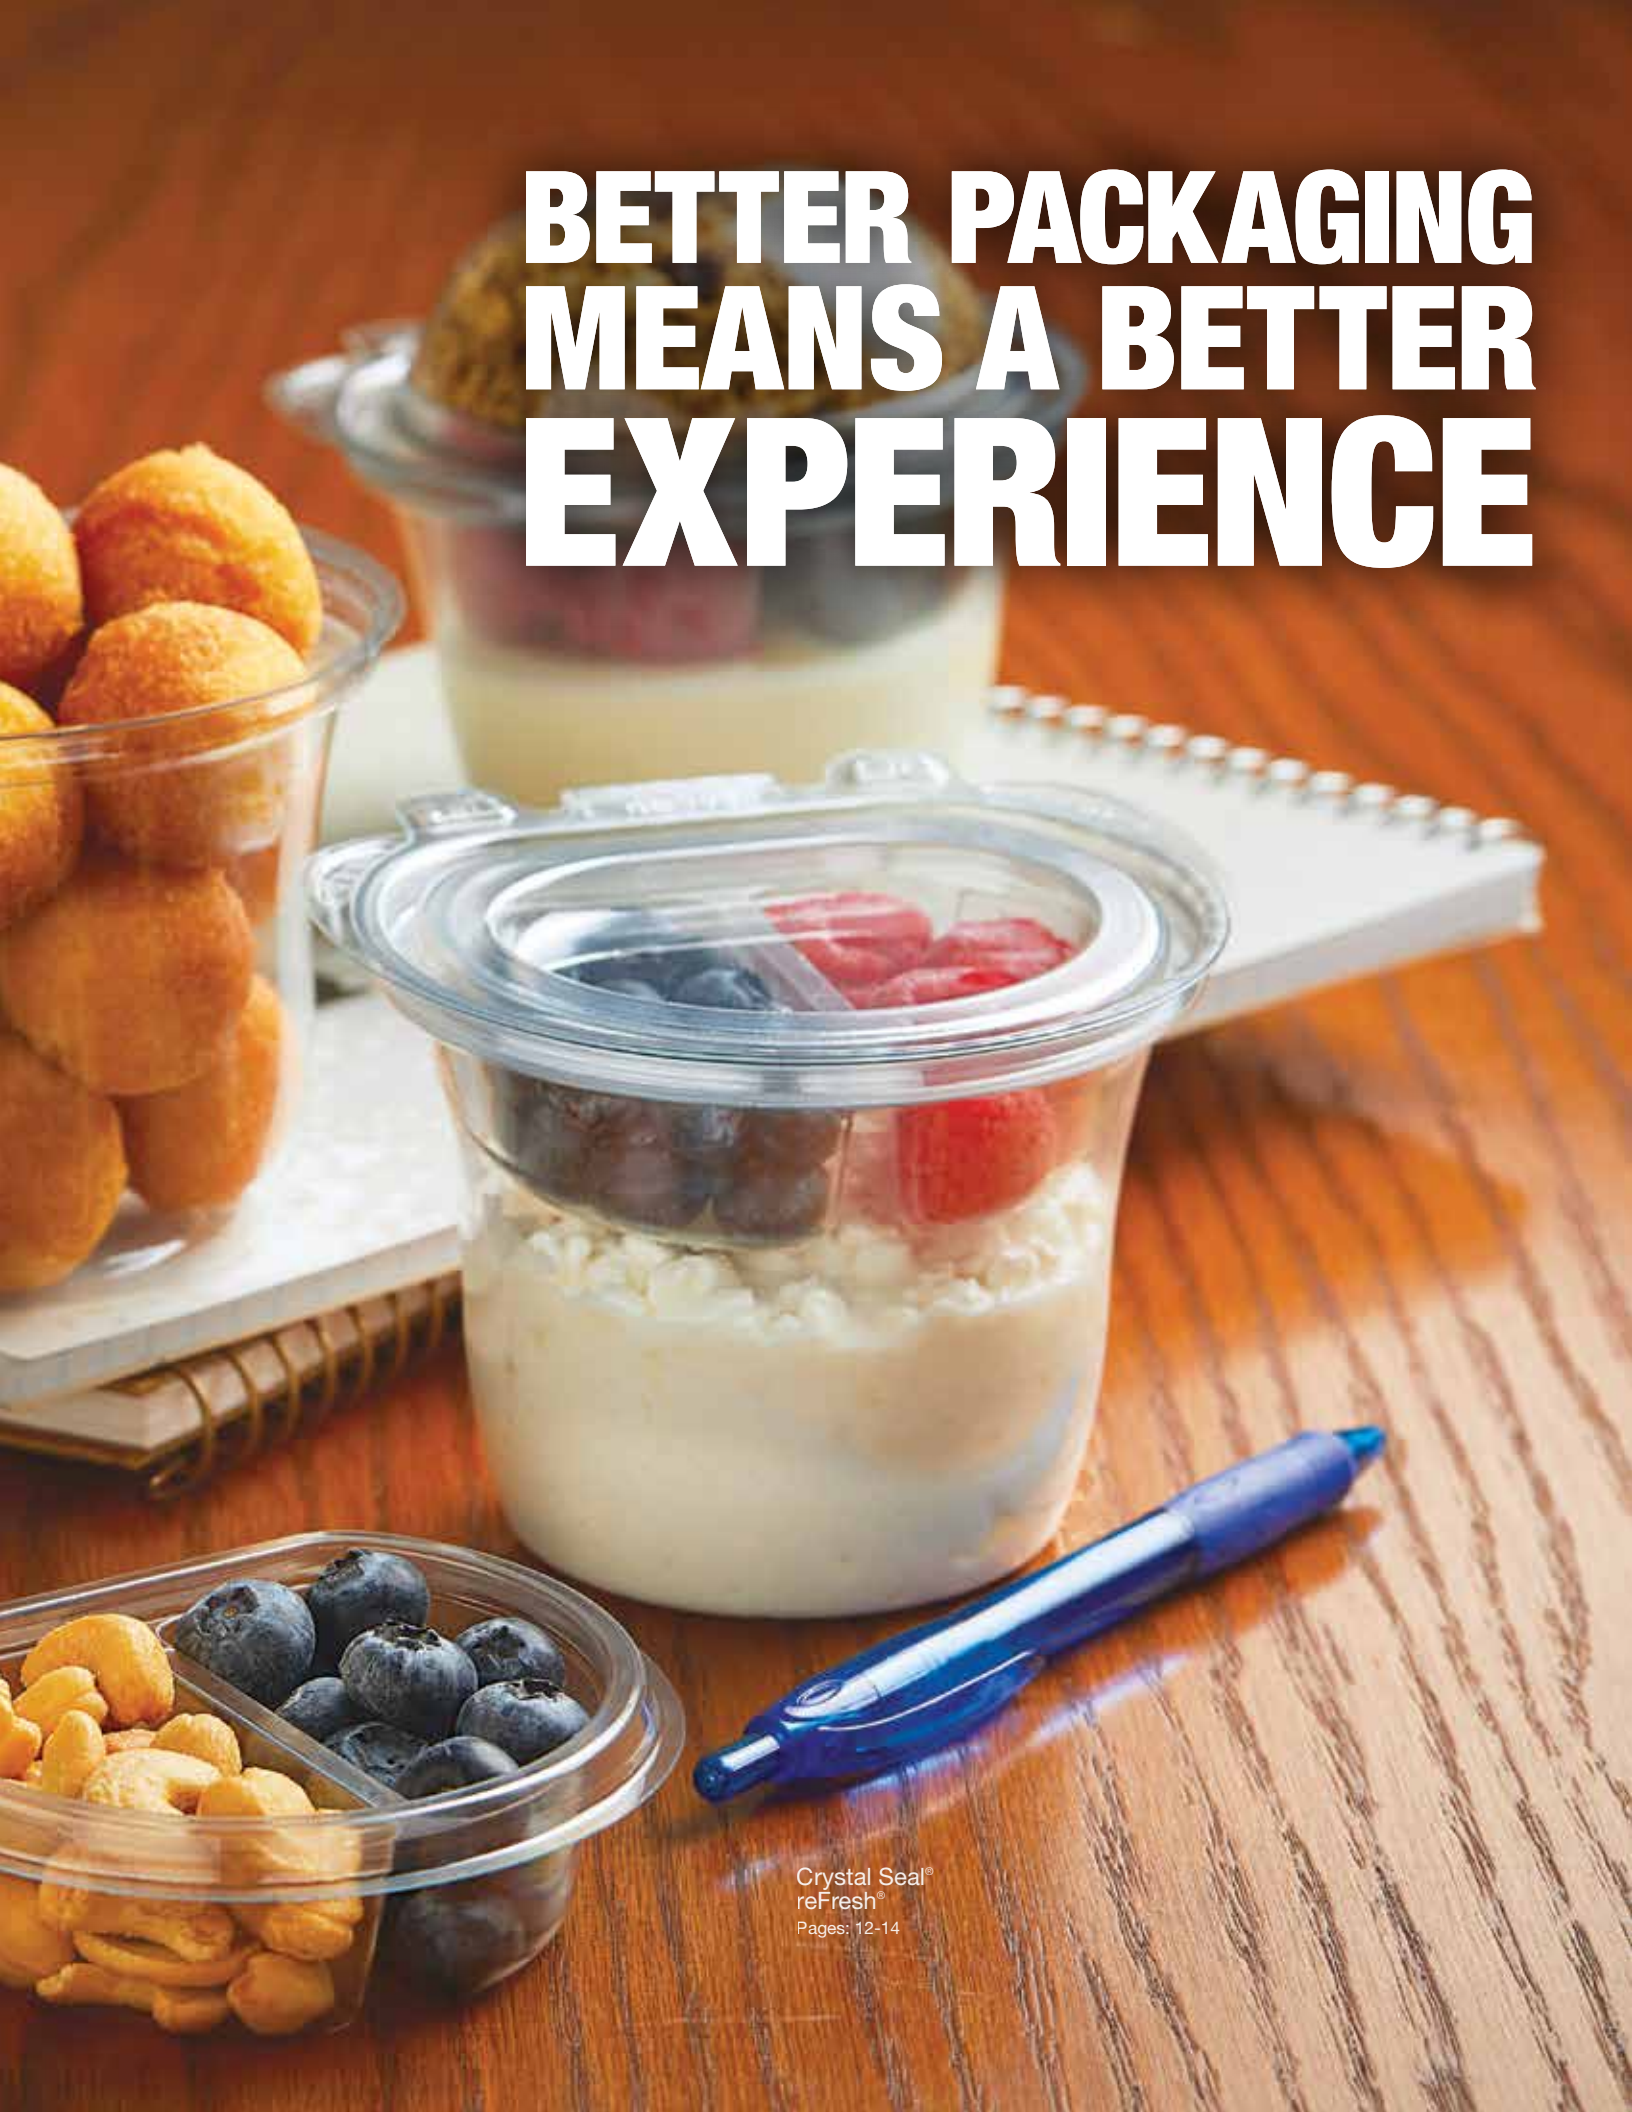

We are one of the nation's leading designers and manufacturers of thermoform packaging.

Dedicated to solving problems through proactive innovation, our packaging inspires better engagement between people and products. Our large selection of high-quality stock and custom food packaging offers food retailers and their consumers quality, protection and sustainability.

BETTER PACKAGING MEANS A BETTER EXPERIENCE

Crystal Seal®
reFresh®
Pages: 12-14

LIVING SUSTAINABLE FOR A BETTER TOMORROW

Living sustainable is not just something we say, it is our company vision. We strive to be an industry leader in sustainability and reducing our overall carbon footprint by implementing a variety of energy saving programs, water recycling, and working with local governments and municipalities. In 2011, we introduced our post-consumer recycled PET material, EcoStar. EcoStar is made using post-consumer recycled PET bottles and thermoforms that are transformed back into consumer food and retail packaging. All of our PET stock retail packaging is made using EcoStar, reducing PET plastic bottles and thermoforms from landfills.

CALCULATING YOUR SUSTAINABILITY

Diverting over 1 billion PET bottles and thermoforms from landfills each year is something we are proud of. We want you to know how many recycled PET bottles went into making your packaging. On each specifications page there is a column with the bottle image (shown above). In this column, you will see how many bottles per unit and per case were used and saved from the landfill to make that item. The best part about our PET products is they are 100% recyclable.

**BE THE FIRST CHOICE PACKAGING PARTNER
FOR INNOVATIVE DESIGN, COLLABORATION AND
SUSTAINABILITY**

PLACON CORPORATION VISION

ecostar®

We are at the cutting edge of environmentally conscious packaging materials with our EcoStar material. EcoStar is a food grade post-consumer recycled PET material that is made from curbside-collected bottles and thermoforms and is 100% recyclable. Commitment to recycling PET by reclaiming plastic bottles and plastic thermoforms and turning them back into consumer packaging, is how we at Placon, make simply, better, packaging. Reuse, recycle and re plastic is our vision to get the most out of plastic.

OUR FACILITY

- Opened in 2011
- ISO 9001 facility
- 70,000 square foot recycling facility
- Follows GMP and Lean Manufacturing Principles
- FDA Letter of Non-Objection (LNO) for direct food contact

A CLOSED LOOP PROCESS

We take post-consumer PET bottles and thermoform packaging collected from curbsides and turn it into post-consumer recycled plastic sheet in our extrusion facility. We then produce stock or custom food and retail packaging with that post-consumer PET sheet material. Each product made from our EcoStar material is 100% recyclable.

RECYCLES OVER

1 BILLION

BOTTLES & THERMOFORMS A YEAR

PROCESSES ROUGHLY

120,000 lbs

OF POST-CONSUMER BOTTLES AND THERMOFORMS A DAY

This is equivalent to around 83 pounds a minute

PROCESSES

36 MILLION

POUNDS OF CLEAN PET FLAKE A YEAR

This is equivalent to saving 75,000 barrels of oil

RECYCLE REPLASTIC RESULTS

CUSTOM FOOD

..... DESIGN PROCESS

DEFINE & COLLABORATE

We begin with an assessment of your packaging requirements through meetings and analysis. Next, our engineers create a conceptual package design.

CREATE PROTOTYPES

Once the design is approved, we move to developing prototype tooling which we use to create sample packaging. 3D molds test fit, form and function. Together, we analyze and modify. The prototype packaging is then presented for your approval.

BEGIN PRODUCTION

When the packaging meets your final approval, we create the production tooling and, when you are ready, begin creating your product in our production facility.

COMMERCIALIZATION

Our sales and engineering teams work closely with you to understand your time constraints and do everything possible to meet or exceed your expectations in getting your product to market.

SPEED TO MARKET

We assign each project to an Inside Account Manager to ensure all steps of the project meet your timeline. With on-site tooling and near production prototyping, we have the ability to bring your packaging design to market faster and more efficiently.

PACKAGING SOLUTIONS

At Placon, we deliver packaging breakthroughs that inspire better engagement between people, products, increasing consumer demand and shelf appeal.

Thermoforming

We offer high-quality custom food packaging design, prototyping, tool design/build, extrusion and commercialization.

- APET, PP, HIPS, Post-Consumer recycled PET, heat sealable, printable and barrier materials
- ISO 9001, AIB certified, & IMS with rigorous quality control procedures

Custom Decorating Solutions

Customers from large private-label brands, food processors, supermarkets to independent bakeries and delis have employed our high-quality decorating solutions to build brand awareness and boost shelf appeal.

- Dry offset printing up to ten colors
- Pressure sensitive labeling
- Custom inserts
- Embossing

Injection Molded

Our Injection Molded containers and tubs are available in sizes ranging from 6 ounces to 168 ounces. Each container is designed with a tight seal to lock in freshness, provide safe stacking, easy de-nesting and the option to brand them your own with your logo. Our Injection Molded containers offer a combination of flexibility, durability and quality.

- Available in a large variety of colors, clear and super clear
- Freezable, polypropylene (PP), high and low density polyethylene (HDPE/LDPE)
- Tamper Resistant and BPA free
- Reusable, recyclable, microwavable, and dishwasher safe

CRYSTAL SEAL[®]

Our Crystal Seal line of hinged thermoformed plastic food containers are helping keep over 1 billion PET plastic bottles and thermoforms out of landfills each year. Manufactured with EcoStar post-consumer recycled PET material and using up to 100% curbside collected post-consumer content. The Crystal Seal food packaging are crack and leak resistant, meeting the high quality standards that are synonymous with our Placon brand.

KEY ATTRIBUTES

MADE WITH
ecostar[®]

LOCK IN FRESHNESS

LEAK RESISTANT

CRACK RESISTANT

Crystal Seal® Dimensions

Crystal Seal Dimensions packages are the clear solution for all your bakery items. These easy open and easy close containers offer exceptional protection, guaranteed to keep foods safe during transport. Made from EcoStar material, these 100% recyclable packages allow you to market your commitment to a sustainable future, while creating mouth watering displays that showcase tasty treats from every angle.

Tight Snap Lid

Easy grip tabs make opening containers user-friendly while ensuring maximum shelf life and product freshness. Tight perimeter snap keeps product secure from store to home.

Superior Clarity

Whether viewing from the top or side, our crystal clear EcoStar post-consumer recycled PET material provides superior clarity for the optimal product visibility. Our Crystal Seal Dimensions containers will help showcase your food better to highlight the quality and freshness.

Variety of Styles

Crystal Seal Dimensions packages come in a variety of styles with certain packages offering you low and high dome lids to fit your specific product needs by giving you a better package to highlight the quality and freshness.

Hinged Bakery Container – Angled Cavity

- Angled back wall supports cookies and bars.
- Ridges on the bottom of the package prevent sliding during transport.

10 Count Cookie Tray

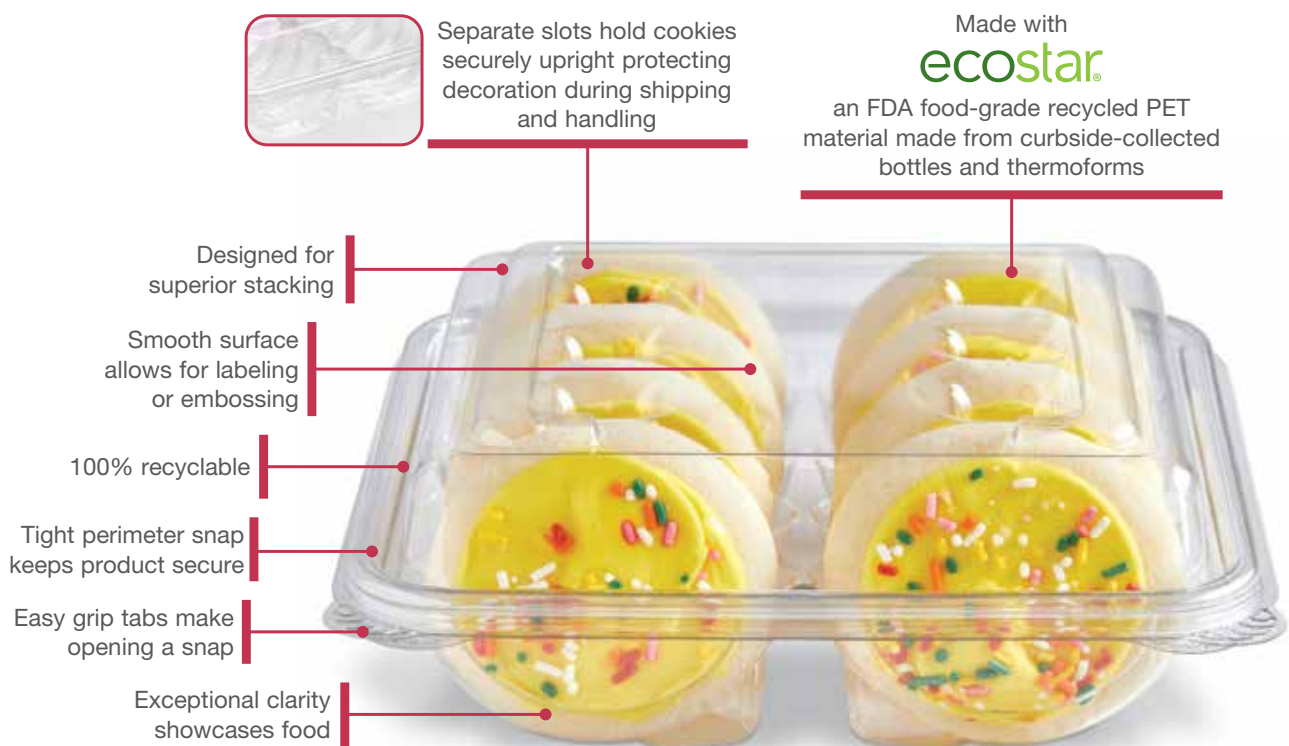

- Separate slots hold cookies securely upright protecting any decoration during shipping and handling.
- Low Dome Lid option holds ten 2½” frosted cookies.
- High Dome Lid option holds ten 3” frosted cookies.

Hinged Bakery Container – Open Cavity, Low & High Dome Lid

- Open cavity allows bulk packaging and excellent presentation for items such as cookies, donut holes, petit fours, mini cinnamon rolls and other delicate bakery items.

Muffin Containers – 4, 6 and 12 Count Mini

- 4 count fits four standard sized muffins.
- 6 count fits six standard sized muffins.
- 12 count mini fits twelve mini sized muffins.
- Center support lid design prevents muffins from being shifting or crushed during shipping or while stacked in a display.
- Smooth area on front of container is perfect for a security label

Crystal Seal® Hinged Deli

Crystal Seal Hinged Deli packages are the clear solution for salads, fruits, nuts and more. These containers provide superior stacking, easy grip tabs for easy open and close along with a secure seal from base to lid to keep your food fresher for longer. Crystal Seal Hinged Deli containers are made from EcoStar post-consumer recycled PET bottles and are a 100% recyclable material. Let our Crystal Seal Hinged Deli be the container to showcase and help make your products stand out in stores by providing crystal clear visibility, a secure seal and 100% recyclable packaging option.

Eco-friendly

Made with EcoStar post-consumer PET material, Hinged Deli packages offer sustainability without sacrificing clarity. Being able to see your product is just as important as seeing that your packaging is sustainable and 100% recyclable.

Flexible and Versatile

Crystal Seal Hinged Deli packages come in a variety of sizes from 4 – 64 ounces to meet the packaging needs of your grab and go, deli, bakery and pre-made foods.

Superior Clarity

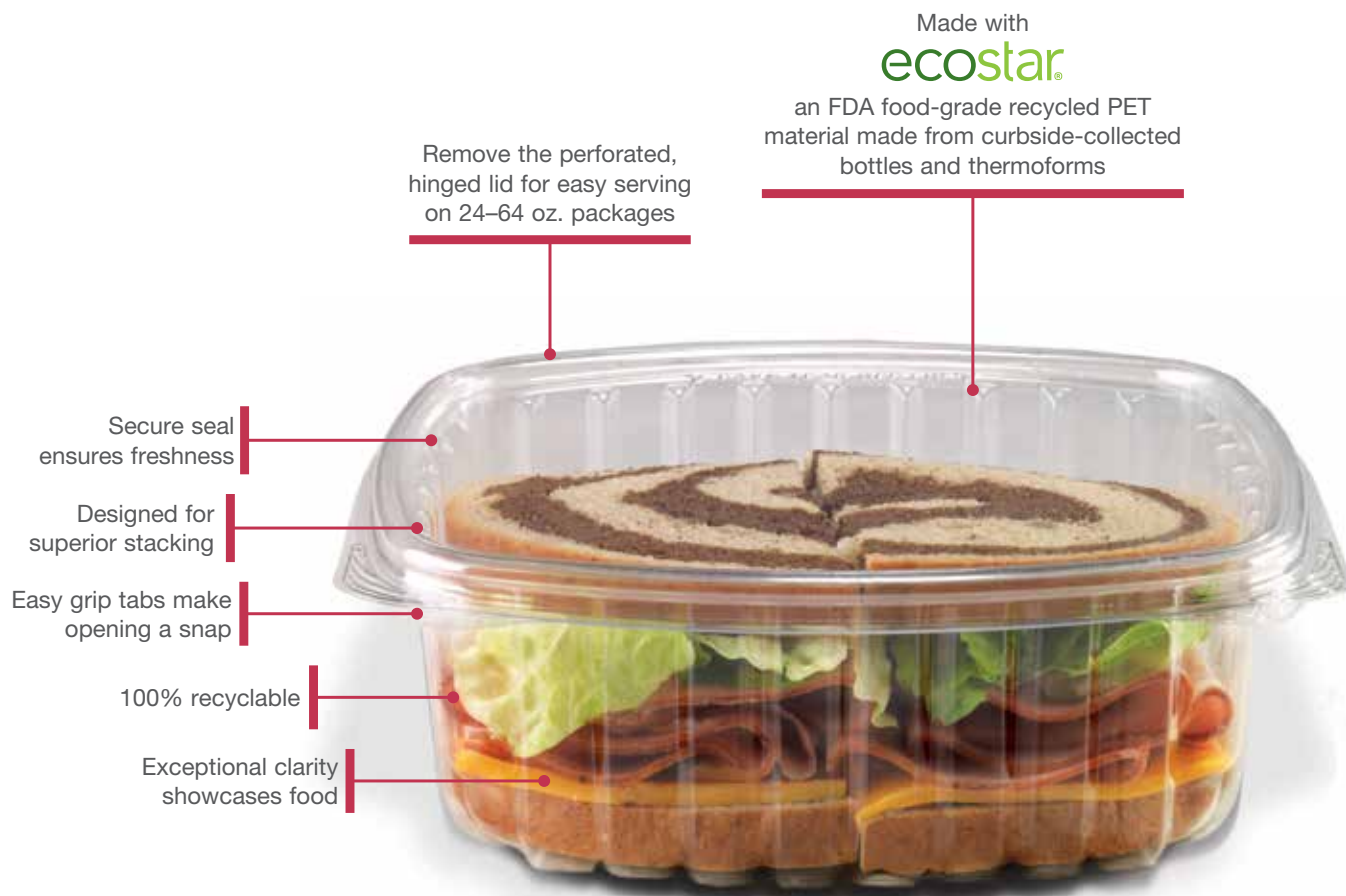

Whether viewing from the top or side, our crystal clear EcoStar, post-consumer recycled PET material provides superior clarity throughout for optimal product visibility. The Hinged Deli packages showcase your product and increase impulse purchases

Hinged, Flat, and Dome Lids

Perforated hinges on 24, 32, 48 and 64 ounce container sizes allow lids to be pulled off making serving a snap. Choose flat recessed lids for added stability when stacking or domed lids for additional merchandising space.

Brand Them Your Own

Hinged Deli containers can be embossed with your logo to provide strong brand recognition.

Crystal Seal® reFresh®

Crystal Seal reFresh tamper evident packages are designed to let the food be the star of the show. Each container was designed to ensure freshness with a secure seal and provide exceptional clarity, so the customer can see the product and all the goodness within each container. reFresh containers are made using our EcoStar post-consumer recycled PET and are 100% recyclable to maximize sustainability. reFresh containers will provide you with a versatile, multi-use, sustainable and secure packaging option to market your product.

Eco-friendly

Made with EcoStar post-consumer recycled PET material that is 100% recyclable. Crystal Seal reFresh packages offer sustainability without sacrificing clarity. Being able to see your product is just as important as seeing that your packaging is sustainable.

Brand Them Your Own

reFresh containers can be embossed with your logo for a unique and customized look.

Superior Clarity

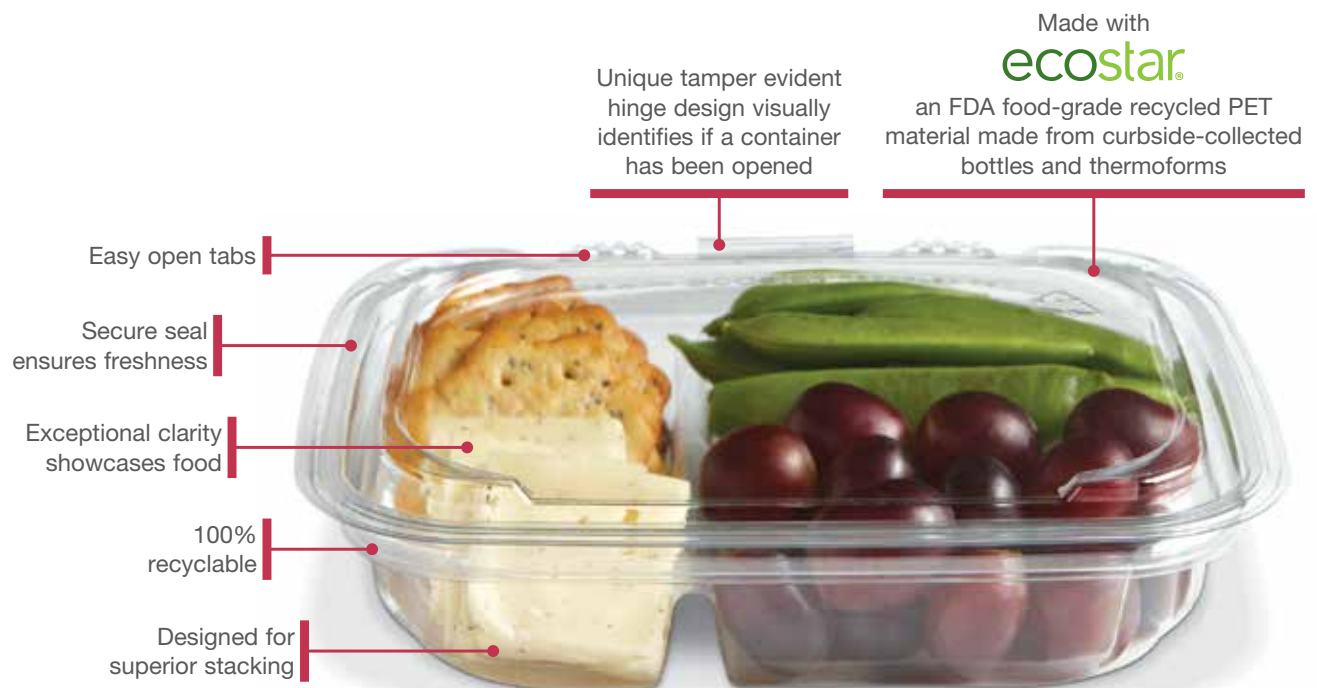

Our crystal clear EcoStar post-consumer recycled PET provides a superior clarity for optimal product visibility. The reFresh packaging line will help your product stand above the rest on store shelves, with clear visibility and able to see the product from all angles to ensure freshness and quality.

Flexible and Versatile

Crystal Seal reFresh tamper evident packages come in a variety of shapes, sizes and configurations that work for grab and go, take out and snack applications. Each package can be used with multiple food applications to fit your specific product needs. reFresh packages are just as versatile that you can merchandise them right side up or on their side and be able to showcase your product beautifully from every angle.

Tamper Evident and Leak Resistant

Our unique hinge design visually identifies if a container has been tampered with. Each container provides a tight, leak resistant seal to ensure foods stay fresher longer and keep them securely contained on the shelf to the consumer home.

Crystal Seal® Tamper Evident

Crystal Seal Tamper Evident containers are the new standard in design. They provide a clear view of the product from all angles and a secure seal to lock in product freshness. Each container has a hinge design that helps you identify if the product or package has been tampered with, to ensure product safety. Crystal Seal Tamper Evident containers are made from our EcoStar, post-consumer recycled PET and are 100% recyclable.

Eco-friendly

Made with EcoStar post-consumer recycled PET material that is 100% recyclable. Crystal Seal Tamper Evident packages offer sustainability without sacrificing clarity. Being able to see your product is just as important as seeing that your packaging is sustainable.

Stacks Great, Nests Great

Tamper Evident containers are designed for superior stacking. Containers are easy to separate manually or in automated lines.

Simply Secure

Our Tamper Evident design eliminates the necessity for wrap-around security labels or shrink bands. You no longer have to worry about removable, tear away pieces to minimize choking hazards.

Flexible and Versatile

Crystal Seal Tamper Evident packages come in a variety of sizes from 8 - 64 ounces to meet your grab and go, deli, bakery and dry foods' packaging needs.

Better Design

With crystal clear sidewalls and lids, Tamper Evident is designed with minimal ribbing for enhanced product visibility and easy "spoonability". Leak resistant design ensures no messes or spills in aisles or at home while maximizing product freshness.

Brand Them Your Own

For strong brand recognition, bases and lids can be custom embossed or smooth flat lids are perfect for adding your own branded labels.

Hinge design visually notifies consumers that the container has been opened

Made with
ecostar

an FDA food-grade recycled PET material made from curbside-collected bottles and thermoforms

Offset, recessed cavity instructional tabs for easy gripping and opening

Secure seal ensures freshness and prevents leaking

Post feature aligns the lid and base for easy closing while enhancing the container's tamper resistance

100% recyclable

Exceptional clarity showcases food

Designed for superior stacking

EVOLUTIONS

Let your customers know they are getting the safest, freshest food possible with our Evolutions tamper evident line of thermoformed deli food containers. Evolutions containers are made with our EcoStar, post-consumer recycled PET that is food-grade and 100% recyclable. The design features a tamper evident technology that enables you to see when the container has been opened or tampered with to ensure food safety. Each container offers leak resistance, sustainability, being made from post-consumer recycled PET bottles and crystal clear visibility, so you can see the product from all angles to give you the best deli container in the market today.

KEY ATTRIBUTES

MADE WITH
ecostar[®]

TAMPER EVIDENT

LEAK RESISTANT

ONE SIZE FITS ALL LID

Evolutions

Evolutions deli containers are transforming deli packaging as we know it. They are made with our EcoStar post-consumer recycled PET material, that is produced from curbside-collected bottles and thermoforms. EcoStar is a food-grade PET material and 100% recyclable. Evolutions combines maximum clarity with leak resistant lids to give you the best in deli containers, that are perfect for cold or ready to eat deli foods like pasta salads, fruits, nuts and candy. Let your customers know they are getting the freshest product possible with the clarity and tamper evident protection from Evolutions.

Eco-friendly

Made with EcoStar post-consumer recycled PET material and is 100% recyclable. Evolutions offer sustainability without sacrificing clarity, to allow the product to be seen clearly by the customer. Being able to see your product clearly is just as important as seeing your packaging is sustainable.

Tamper Evident

Evolutions deli packages let consumers know if a container has been tampered with through a unique corner tab that must be bent to open the package. The bent tabs stay upright alerting consumers the package has been tampered with.

Cold Case and Bulk Items

Perfect for cold and ready to eat deli foods including potato and pasta salads, salsas and dips as well as snack mixes and candy. Evolutions are available in five sizes, from 8 – 32 ounces.

One Size Fits All, Leak Resistant Lid

Evolutions containers pair with an easy and convenient, one size fits all lid maximizing storage space and reducing inventory. A tight leak resistant 360° seal ensures juices, sauces and other liquids stay securely contained, preventing spills in the store as well as on the go.

Stacks Great, Nests Great

Evolutions containers are designed for superior stacking, which makes merchandising easy and secure. Each container can be stacked on top of one another or efficiently fit side by side. Optimized nesting makes it easy to store lids and bases.

VERSATILITY

Fresh 'n Clear™ Bowls and Trays

Fresh 'n Clear Bowls and Trays allow you to securely, clearly and sustainably present a wide assortment of foods. From 8 ounce individual serving sizes, to 320 ounce party sizes, our trays and bowls are durable and versatile. Fresh 'n Clear Bowls and Trays make a great option for cut fruit, traditional green salads or cold salads. Each lid is made with our anti-fog to ensure clear product visibility to highlight the product inside. Fresh 'n Clear Bowls and Trays are made using our EcoStar post-consumer recycled PET, that is 100% recyclable. Take a look at our assortment of styles, shapes and sizes to find the right Fresh 'n Clear product for you.

Eco-friendly

Made with EcoStar post-consumer recycled PET material, that is 100% recyclable. Fresh 'n Clear Bowls and Trays offer sustainability without sacrificing clarity. Being able to see your food is just as important as seeing that your packaging is sustainable.

Stacks Great, Transports Effortlessly

Stackable containers make merchandising easy and secure while maximizing display space. Tight sealing snap-on lids protect a variety of foods, keeping them fresh and eliminating spills.

Flexible and Versatile

Fresh 'n Clear Bowls and Trays work for a variety of foods from individual serving sizes to party ready. Use Bowls and Trays for fresh, prepared, ready to eat foods to delicate bakery items, candies and nuts. The sleek profiles and anti-fog lids allow your customers to see the product clearly for a strong presentation from any angle.

Fresher Longer

Perimeter tray base channel holds liquids away from food to extend freshness.

Brand Them Your Own

Offering maximum branding visibility options, domed lids and tray bases, as well as 1 - 4 sidewalls can be customized with your logo or other designs.

Fresh 'n Clear™ Catering Collection

Fresh 'n Clear Catering Collection of platters and bowls allow you to securely, visually and sustainably present a wide assortment of foods. With a sleek design that lets your food take center stage, our Catering Collection will be a crowd pleaser at any event. The Catering Collection is designed to showcase your party favors and snacks, while keeping them secure and remaining fresh. Each base and lid are made using our EcoStar post-consumer recycled PET material, that is 100% recyclable. Let our Catering Collection do the work for you at your next event to keep your party favors looking great.

Sustainability

Made with our EcoStar post-consumer recycled PET material that is made from curbside collected bottles and thermoforms. EcoStar is food-grade and 100% recyclable.

Fresher Longer

Perimeter tray base channel holds liquids away from food to extend freshness.

Stacks Great, Transports Effortlessly

Innovative tray base venting system slowly releases trapped air, preventing lid “ballooning” for easy stacking. Lids are designed with virtually no overhang on the base to prevent unexpected, accidental removal of lids during handling and delivery. Our tight lid to base seals ensure product freshness while allowing you to stack and transport food from restaurant, supermarket, home, or to a venue with total confidence. Large lid tabs are designed for easy gripping and effortless lid removal ensuring product contents are undisturbed.

Flexible and Versatile

Catering Collection bowls and trays work for a variety of foods from sandwiches, salads, fruit and veggie trays to hors d’oeuvres and desserts. The trays’ low, sleek profile enables your customers to see product clearly for strong food presentation from any angle.

Brand Them Your Own

Offering maximum branding visibility options, domed lids and tray bases as well as 1 - 4 sidewalls can be customized with your logo or other designs.

Made with
ecostar

an FDA food-grade recycled PET
material made from curbside-collected
bottles and thermoforms

Fresh 'n Clear™ GoCubes™

Fresh 'n Clear GoCubes line brings style, versatility, and best of all, sustainability to a classic square container. GoCubes take on the go convenience and give it a look that will draw customer's attention. Use GoCubes bases alone or add a universal insert tray for maximum appetite appeal and extended shelf life. Select GoCubes models now have the capability to use our SnackCubes® on the go product to give you better portion control and keep your ingredients fresher for longer.

Eco-friendly

Made with EcoStar post-consumer recycled PET material and is 100% recyclable. Evolutions offer sustainability without sacrificing clarity, to allow the product to be seen clearly by the customer. Being able to see your product clearly is just as important as seeing your packaging is sustainable.

Brand Them Your Own

GoCubes lids options made from our EcoStar post-consumer recycled PET can be embossed with your logo for a unique and customized look.

Mix and Match

GoCubes ultra sleek bases are available in eleven sizes from 6 ounces to 80 ounces, in our CC1 and CC2 model numbers. Both CC1 and CC2 base models are compatible with one of our six different insert trays. GoCubes is able to provide more versatility and merchandising solutions than you ever thought possible.

Fresher Longer

Keeping contents separated lets you highlight specific ingredients while keeping food looking better and tasting fresher longer. GoCubes compartment trays eliminate the need for weighing and measuring ingredients, ensuring consistent portions from package to package while reducing prep time.

Film Seal or One Size Fits All Lid

Easy to film seal, these containers also offer a convenient, one size fits all recycled PET lid option using our EcoStar material that is 100% recyclable. It offers your product a secure seal, easy opening tabs, inside fit for leak resistance and crystal clear anti-fog technology.

Stacks Great, Nests Great

GoCubes containers are designed for superior stacking, which makes carrying large numbers of containers less challenging. Optimum nesting makes it easy to store lids and bases.

The GoCubes base along with an inside fit or overcap lid, can provide leak resistance to lock in product freshness longer.

GoCubes are now able to use our on the go SnackCubes as inserts. These inserts give you compartment options for your ingredients, or film seal the SnackCubes to separate the ingredients and keep your meal kits looking fresher longer.

Choose from multiple tray insert options to hold those special ingredients that you may want to add later to your salad or meal kit, while reducing your prep time.

Fresh 'n Clear™ Selectables™

Fresh 'n Clear Selectables line gives you the convenience you need and gives your customers the choices they want in food packaging. You can use a clear or black base, or get creative with 1 to 3 compartment portion control inserts that highlight the freshest ingredients while increasing shelf life. Selectables bring sustainability and flexibility to food packaging.

Eco-friendly

Made with EcoStar post-consumer recycled PET material, that is 100% recyclable. Fresh 'n Clear Bowls and Trays offer sustainability without sacrificing clarity. Being able to see your food is just as important as seeing that your packaging is sustainable.

Brand Them Your Own

Selectables lids can be embossed with your logo for a unique and customized look.

Film Seal or One-Size-Fits-All Lid

Easy to film seal, these containers also offer a convenient, over-cap recycled PET lid option with secure seals and crystal clear anti-fog technology.

Mix and Match

Selectables ultra-sleek bases are available in 7½ or 9 inch clear or black bases with capacities from 24 to 48 ounces. Choose from one of four different styles of insert trays in clear or black for more versatility and merchandising options than you ever thought possible in food packaging.

Fresher Longer

Keeping contents separated lets you highlight specific ingredients while keeping food looking better and tasting fresher longer. Selectables inserts assist in weighing and measuring of ingredients, ensuring consistent portions from package to package while reducing prep time.

Stacks Great, Nests Great

Selectables containers are designed for superior stacking, which makes carrying them less challenging. Optimum nesting makes it easy to store lids and bases. Selectables make your product look great and are easy to use.

Made with
ecostar

an FDA food-grade recycled PET material made from curbside-collected bottles and thermoforms

Over-cap lid, with anti-fog technology, prevents spills and showcases food

Designed for superior stacking

Insert trays keep food fresh and ensure consistent portions.

Four insert styles available in black and clear

100% recyclable

Bases available in black and clear

HomeFresh®

Our industry-leading HomeFresh Deli, Entrée and Rotisserie Chicken containers offer a new modern look and unsurpassed functionality to hot or cold foods. The Polypropylene (PP) material that our HomeFresh lines are made from has the ability to be microwaved for those hot food and leftover meals, can be reused and are recyclable. By offering you a sure-fit seal that provides leak resistance with lock-in freshness to extend product shelf life. Perfectly sized to fit your deli or hot meal options with stacking ability to store or merchandise with ease. The HomeFresh product line provides the versatility you look for in deli, entrée meals and rotisserie chicken packaging.

KEY ATTRIBUTES

MICROWAVE SAFE

SECURE STACKING

LEAK RESISTANT

VERSATILITY

HomeFresh® Deli

HomeFresh Deli containers are an industry leader and design workhorse when it comes to handling your deli products. With products featuring anti-fog and vented lids, to a raised base to keep juices away from fruit to keep them fresher longer, we know the features you want and continue to bring them to you. Our HomeFresh Deli containers are an ideal fit for those cold deli salads, pastas or cut fruit that are easily visible in our clear deli containers. Whether you need clear, white or custom deli container options, let us help find the right deli packaging solution for you.

Rotisserie Chicken Containers

The leak resistant Rotisserie Chicken container ensures your chicken stays fresh, hot, and secure. This innovative, two-piece, patented design features a crystal-clear, vented, polypropylene lid which improves display and adds content appeal. They are stackable, so you can make the most of your display space.

Deli Containers

Showcase fresh foods with our clear plastic deli containers. HomeFresh Deli containers are made from microwave-friendly polypropylene material, perfect for foods that require re-heating. Lids are available in your choice of polyethelene or high clarity polypropylene. We have the ability to customize your containers with our 8-color printing on bases and up to 6-color printing on lids. Let your customized containers stand out on store shelves and highlight your product.

Pineapple & Fresh Fruit Containers

HomeFresh Pineapple and Fresh Fruit container offers a unique solution to hold a variety of fruits or a full cored pineapple. Designed with straighter side walls to accommodate a cored pineapple, the container's raised base design keeps juices away from the fruit, extending shelf life. Being able to provide your customer convenience with fresh cut fruit is a must, so let our deli container help showcase and keep your products fresher, longer.

HomeFresh® Entrée

HomeFresh Entrée line brings premium design and a new modern look to hot meal, microwave ready containers. There has never been a container that adds so much value to your hot meal offerings. HomeFresh Entrée is able to keep your meals safe and secure until ready for re-heating in the microwave as they are microwave safe and easy to use with our vented lid option. You no longer have to worry about containers being tossed around as HomeFresh Entrée are designed for modular stacking, making them easy to carry or take with you. Our HomeFresh Entrée line has everything you need and everything your customer wants in a microwaveable container.

No Re-Plating

Made from microwave friendly polypropylene, HomeFresh Entrée containers go from the store, to the microwave, to the kitchen table without re-plating. You just heat and eat, making your meal prep simple and saving customers extra time without having an extra dish to wash.

Prevents Leaks and Spills

Keeping food warm and secure is the first job of hot meal containers. HomeFresh Entrée features a deep snap groove for secure tab closure. The tabs are designed to make it easy when opening and closing the container.

Reusable and Recyclable

HomeFresh Entrée containers are washable, reusable and can be recycled. You can simply heat your food in the microwave, eat and wash or recycle. Who would have thought food prep and clean-up could be so easy.

Single Entrées or All In One Meals

HomeFresh Entrée bases are available in 8 to 40 ounce sizes. Choose from 1, 2 or 3 compartment bases for more versatility and necessary portion control. HomeFresh Entrée containers are great for single serve entries or all in one meals for family and dinner events.

Stacks Great, Nests Great

HomeFresh Entrée containers are designed for modular stacking, reducing the storage space and making it easy to store lids and bases. Each container is perfectly sized to fit small and large carryout bags, so you can take those leftovers home and be confident they will be secure with HomeFresh Entrée. The modular stacking features makes carry multiple containers a breeze as they stack neatly and are much more stable than other food containers.

Cold Dishes Too

With the option of PET lids, HomeFresh Entrée containers are perfect for cold-case food applications. These non-microwavable lids are made of high clarity, recycled material so all the beauty of your freshly prepared food shows through.

Brand Them Your Own

HomeFresh Entrée PET lids can be embossed with your logo for a unique and customized look. The large lids offer a wraparound label option that has no effect on stacking.

Injection Molded

Our Injection Molded containers are another great option that we offer in our diverse line-up of stock food packaging choices. With tight seals that lock in freshness, safe stacking, easy de-nesting and the option to brand them your own. You will quickly realize that our Injection Molded containers are the best choice for your product. Injection Molded offer a combination of flexibility, durability, and quality that you are sure to enjoy.

KEY ATTRIBUTES

FREEZABLE

BRANDING

MICROWAVE SAFE

LOCK IN FRESHNESS

Injection Molded

Injection Molded containers bring you a variety of features ranging from freezable, customizable to microwave safe. If you are looking for a container to put soup into, we can help. If you need a deli cup for cold salads, we have that too. Each container is designed to ensure safe stacking, easy de-nesting and a base to lid seal that is guaranteed to lock in freshness. Our Injection Molded containers offer a combination of flexibility, durability and quality.

Cold Case, Hot Foods, Bulk Items and Freezer

From dips, grated specialty cheeses, hot foods to freezer products, the list of applications you can use our Injection Molded containers with are endless. Designed for automated fill equipment to promote production efficiencies. They are available in 7 to 168 ounce sizes and are considered a "410" on all items, except the Classic Line 64 - 168 ounce container, that vary by item.

Stacks Great, Nests Great

Containers are designed for superior stacking, which makes merchandising easy and safe. Optimum nesting takes up less space when storing lids and bases. Each container goes through our strict production tolerances to ensure that we help make your production and automation lines more efficient.

Leak Resistant Seal

A tight leak resistant seal ensures juices, soups and other liquids stay securely contained, preventing spills in the store as well as on the go.

Flexible and Versatile

Injection Molded containers are reusable, recyclable, microwave-reheatable and dishwasher safe. Specific items identified by "SPP" or "Freezable" in the product description can be used in freezer applications.

Safety Standards & Certifications

Containers and tubs are unsusceptible to flavor and odor transfer so consumers enjoy the taste of food and nothing else. BPA free and designed to meet food grade and milk shipping industry standards.

- SQF Level 2 Certified
- IMS (Interstate Milk Shippers) Listed

Custom Printing & Labeling

Elevate your brand visibility by customizing your packaging with decorating options up to 10-color vivid printing technology or choose a pressure sensitive label application. Color material options are available and made to order with minimum order requirements.

VALUE LINE

Our most popular Injection Molded line, the Value line is built for automation efficiencies, making it production ready. "P" models have a stacking shoulder and are more robust to give you a high-performing container that is perfect for hot or cold foods. Available in 7 - 32 oz sizes that come in clear, white with custom colors and freezable options available. This line features one universal lid for purchasing ease.

CLASSIC LINE

Classic line is available in sizes ranging from 8 oz round deli bases to 168 oz tubs with or without plastic handles, and features exceptionally tight seals, easy de-nesting and brilliant custom decoration or printing options. Some products are made to be used within freezer applications, which are designated by "Freezable" on the item listings page. Available in PP and HDPE with recessed or flush lid.

TAMPER RESISTANT

Tamper Resistant is available in 8 to 32 oz sizes with a tamper resistant, resealable one size fits all tamper resistant lid. Comes in clear or white PP or freezable grade food-safe resin with custom colors, decorating and printing options available. With an easy break away tab that lets you know if it has been tampered with. Let our Tamper Resistant containers do the work to keep your products safe.

CLEAR

Clear material lets you showcase your product on shelves. The clearness gives your customer the ability to see the product inside the container to ensure freshness and quality.

WHITE

White material gives you the ability to create product and brand consistency. You no longer have to worry about the product colors being visible as the white material blocks product color to give you a precise billboard for your brand.

NATURAL

Natural material is slightly less visible than Clear. It provides a clean canvas to display your product messaging and brand, while still allowing your product to be visible.
