CARAFE

Southern Champion Tray's On-The-Go Carafe features an innovative, tower design with an inset handle that allows your customer to easily carry and pour their coffee with one hand! The location of the pour spot on top of the box also allows you to get closer to your cup, ensuring fewer spills. The carafe is now available in plain kraft or with an upscale stock print to fit in a variety of event settings. In addition, this carafe carries an impressive environmental story. The outer corrugated carton and interior plastic jug are both recyclable where facilities exist. Contact your local sales rep for more information.

Pre-assembled • For hot or cold beverages • Inset handle for safe, easy pouring • Made in the U.S.A.
