

NATURAL ChampWare™

RECYCLABLE &
COMPOSTABLE
WHERE FACILITIES EXIST

The ChampWare Natural product line offers a responsible solution for your customers' tableware needs.

This premium product line consists of plates, bowls, platters, and clamshells. ChampWare Natural products are naturally sourced using bagasse, a fibrous by-product of the sugarcane refining process. All ChampWare Natural items are recyclable and compostable in the limited areas where facilities exist. These items are moisture and grease resistant and the natural color makes a sustainable statement to your customers. The sturdy design provides a much stronger option than paper plates. Contact your sales rep for more information.
