

SUGARCANE CLAMSHELLS

# REDEMPTION

you can carry with.

# Expect more and sacrifice nothing

Here's some food for thought: polystyrene to-go containers are made from precious oil and usually end up in landfills. Sugarcane Clamshells from Eco-Products® are not only strong, grease and cut resistant alternatives to plastic or polystyrene, they're also ASTM compliant for compostability and made from a reclaimed and rapidly renewable material.

## GREENSTRIPE® by Eco-Products®

Made from sugarcane, a renewable and reclaimed resource

Meet ASTM standards for compostability\*

For use with hot or cold foods

Microwaveable, freezable
