

Can We Protect our Environment by Revolutionizing the Plastic Grocery Bag?

Yes... We Care!

A Plastic Grocery Bag you can Completely Fill Up?

Yes... We Care!

Recently, as part of our ongoing effort to be a green citizen we've switched to the Hippo Sak[®] grocery bag. Hippo Sak[®] is an innovative eco-friendly plastic bag. Unlike ordinary plastic grocery bags Hippo Saks have a patented reinforced bottom seal and are so strong they won't get holes along the bottom seal or tear easily.

Fill up Each Hippo Sak[®] with at Least 8-10 Items and Reduce the Amount of Plastic Bags Used

- 35% FEWER plastic grocery bags nationwide!
- 500 FEWER bags annually for every household in the U.S.!
- 750,000,000 lbs LESS environmental waste nationwide

An Eco-Friendly Plastic Grocery Bag?

Yes... We Care!

Hippo Saks are significantly better than ordinary plastic grocery bags and paper bags in terms of overall impact on the environment:

- Holds as many items as paper or reusable bag
- Durable enough to be reused at least 3 times
- No double bagging needed
- Made only in the USA from domestic natural gas
- Holds more items than a paper bag but require only 1/4th and 1/20th the water used to produce
- Non-absorbent Hippo Sak[®] reduces bacteria transmission for safer food handling
- 100% recyclable at end of its lifetime

A Reusable Plastic Grocery Bag?

Yes... We Care!

Hippo Saks are the first truly "reusable" plastic grocery bag! Because of their strength Hippo Saks can be easily used 3 times before being recycled! In fact we encourage you to bring your clean bags back for reuse on your next shopping trip! You can then reuse Hippo Sak[™] around the home as a wastebasket liner or for other tasks.

Can We Protect our Environment by Revolutionizing the Plastic Grocery Bag?

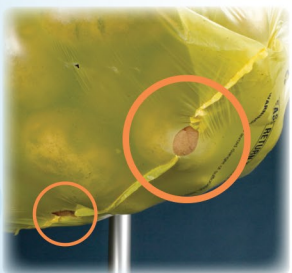

**Yes...
We Care!**

Hippo Sak®

Innovative **Power Strip** makes Hippo Saks' bottom seal **100+** times stronger than regular seals and increases film strength by **40%** so it can hold **6 gallons (50lbs)** of water without leaking! **No Double Bagging Needed!**

Ordinary Plastic Bags

Non-reinforced bags easily get holes along the bottom seal and will leak with only **2.5 gallons** of water!

Hippo Sak® is Strong Enough to hold More Groceries than a Paper or Reusable Bag!
