NEXA™ Hand Hygiene System

Effective and efficient hand hygiene in a sleek platform.

Effective hand hygiene is one of the most important ways to help prevent the spread of foodborne illness and is critical for food safety and brand protection. *Did you know...*

An estimated **80% OF ALL INFECTIONS** are transmitted by hands.¹

95% of people **DON'T** properly and **ADEQUATELY WASH** their hands.²

Why aren't your employees getting their hands clean?

- 1 **Low awareness** of the impact of foodborne illnesses and how they can be prevented
- 2 **Wash without soap** and rinse with water
- 3 **Lack of formal training** on proper hand hygiene procedures
- 4 **Equipment failure** and poor product inventory create a lag in use
- 5 **The "ick factor"** resulting from messy and dirty dispenser areas make them squeamish

² <http://msutoday.msu.edu/news/2013/eww-only-5-percent-wash-hands-correctly/>

The Nexa Hand Hygiene System combines **INNOVATIVE TECHNOLOGY** with best-in-class service, making your **HAND WASHING HABITS EFFECTIVE AND EFFICIENT.**

Industry-leading system offers foaming hand hygiene products in a sleek, easy-to-use dispensing platform with 99% product evacuation and less clean-up.

PREVENT PRODUCT ABUSE
Optional lock and key prevents abuse.

EASY IDENTIFICATION
Easily identify product in dispenser with interchangeable badges.

REDUCED PRODUCT WASTE
Collapsible bottles evacuate up to 99% of product.

LESS CLEAN-UP
Patented Clean Tip™ pump pulls excess product back in to avoid drips and clogs.

BACTERIA-RESISTANT
Antimicrobial protection in the push bar works continuously to inhibit the growth of bacteria, mold and mildew.⁴

TOUCH-FREE DISPENSERS AVAILABLE
Energy-saving touch-free dispenser offers longer battery life and requires fewer battery change-outs.⁵

⁴ Bacteria, mold and mildew that can cause degradation.

⁵ Over the course of 50 months at 50 actuations per day in comparative testing using Nexa's touch-free dispenser and a leading competitor's dispenser.
