

# KAY® HAND SANITIZING AND DISINFECTING WIPES PROGRAM

Hand sanitizers and disinfectants play a critical role in proactive public health protection.

Having convenient, clean hand wash facilities and hand sanitizer or hand sanitizing wipes available to customers is helpful in achieving this goal. When customers follow proper hand hygiene, potential illness can be reduced. It is recommended to encourage customers to wash their hands before eating.

## HAND SANITIZER WIPES

Having hand sanitizer wipes for customers is helpful to ensure you are providing **effective solutions to prevent the spread of illnesses.**

## DISINFECTANT WIPES

Disinfectant wipes are a **convenient solution** for employees to use on high touch point, non-food contact surfaces that need to be regularly disinfected.
